

A New MyChart Landing Page and More...

On Sunday, June 5th, you'll wake up to a new landing page for MyChart, which includes a centralized location for your upcoming appointments and tests/procedures that you need to complete. You'll also see a list of your UR Medicine ambulatory health care team members. Finally, check out the new Plan of Care page under My Medical Record, that details much of the information found on your home page.

New MY PLAN OF CARE page!

Features include:

- **To Do:** Includes any upcoming lab tests, appointments (with a link to a calendar), or health maintenance items with quick links to request appointments or update the information.
- **Care Team:** Lists providers whom you have recently seen during an office visit, along with quick links to request an appointment or message (if available).
- **Medications:** Details your medications list, with a quick link to make a refill request online (if available).
- **Goals:** If your provider has talked to you and documented a goal you are working on, you will see it displayed with any updates.

My Plan of Care
